

Dynamic Solutions from Concept to Manufacture

Hercus offer the complete Engineering & Transmission package for all types of Industries and Situations.

For over 80 years, Hercus has offered the following commitments to its customers:

- * Quality
- * On Time
- * Flexibility
- * Competitive Pricing

and at all times a "Hands on, open approach"

Mining, Manufacturing, Agriculture, Food Production, Aquaculture, Power Generation, are some of the Industries, Hercus offer their services too.

Whether working together with a Major Mining Company on a planned "Shut Down" or a "Breakdown" on a Prawn Trawler, Hercus is able to support your needs.

Hercus Workshop services include the following:

- * Gear Cutting (all forms)
- * Worm Grinding
- * Worm and Worm Wheels
- * Slotting & Broaching
- * Gearbox Repairs & Refurbishment
- * General Welding
- * Design & Drafting Solutions
- * CNC Machining – Milling & Lathe
- * Gear Grinding
- * Conventional Turning & Milling
- * Horizontal Press – 300t
- * All types of "Assembly" repairs & servicing
- * Paint Shop

Combined with our Workshop Services, Hercus has access to a large network of outside contractors that allow Hercus to manage the whole project, therefore the customer does not need to deal with several suppliers to get the job done.

HERCUS the Dynamic Solutions provider.

Please visit www.hercus.com.au where you can see the full range of Hercus Services and Transmission Products available.

You can also "Request a Visit" from a Hercus Representative.
