

260 Metal Lathe Refurbishment

Has your HERCUS 260 METAL LATHE seen better days ?
Tired of turning a 'TAPERED' shaft when it should be 'PARALLEL' ?
Or simply do you want to reward yourself with a rejuvenated Lathe ?
Hercus can provide a refurbishment package that covers the following...

Lathe will be completely dis-assembled and inspected.

(From this process Hercus will be able to determine if additional parts and work are required, extra work and parts will be quoted accordingly)

Lathe Bed will be re-ground. (majority of imperfections removed)

Headstock will be inspected and serviced

Tailstock will be inspected and serviced. (Tailstock Base may require replacement, at additional cost)

Saddle and Apron will be inspected and serviced.

(Cross Slide and Top Slide Nuts, Half Nuts, Worm and Worm Wheel will be replaced)

Gearbox removed, inspected and serviced.

Lathe will be re-painted in Hercus Vista Green, re-assembled and adjusted accordingly to Hercus Inspection Sheet Tolerances.

(Copy available upon request)

All replacement parts are genuine Australian Made by Hercus.

Total investment for the Refurbishment of your Lathe starts at

**\$3,200.00 Bench Model or
\$3,600.00 Cabinet Model.**

Please note:

All Prices are subject to an additional 10% G.S.T.
and do not include Freight costs.

All refurbishments are subject to a quotation fee of \$500.00
if the Lathe refurbishment does not proceed.
